

HETA June Update

Application Deadline

Our applications will close Friday 25th July for our Company Open Day in July. If students wish to find out which vacancies are available, they must apply before this date if they wish to make their way through our application process.

We will still be accepting applications after this deadline however they will not be guaranteed a position in September.

Competition Time

Win an Alexa Amazon Echo Dot!

As technology advances globally, engineers must be able to communicate effectively through both reading and writing. We want to identify ways how engineers might communicate with other people through verbal or written communications, and where would reading skills be important?

This competition is open to both School & College Students between Year 7 and Year 13.
